

CB Mic Keepers

Retractable Gear Attachment Systems

First engineered for SCUBA diving, the Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in **severe environments with maximum break strength and durability.**

The Gear Keeper is at the core of an extensive product line that boasts an impressive array of benefits and features: a **patented flushing system** that clears sand and debris from the unit, is **salt-water proof**, and will withstand **high-temperature** environments; a **patented Q/C Connector System** that provides quick and easy connection/disconnection of gear.

The **RT3 series** features **80# (36 Kg) break-strength** and Nylon/Kevlar line.

The **New RT4 series** features **60# (27 Kg) break-strength**, stainless steel nylon coated cable or an optional high-tensile Spectra line. Both series Gear Keepers have high-impact housings and are available in multiple spring forces and mounting options for any gear you need to keep handy and can't afford to lose.

The original **CB Mic Keeper®** revolutionized the mounting of a CB Mic in a truck by eliminating the dangling found with bungee cords, hitting the driver in the head or dropping on the dash. It makes your CB Mic much more convenient and easier to use—**Grab your Mic, Use it, Let it go.**

The industrial strength **CB Mic Keeper** is built to withstand the daily abuse of truck driving.

The **New RT4 series Standard CB Mic Keeper** provides longer extension and twice the spring life. Now, in the same small package size, you get extra reach and durability.

The **RT3 series Heavy Duty CB Mic Keeper** provides the ultimate device for those heavy duty users; higher retraction force, four times the spring life of the standard version, longer extension to reach to the passenger compartment along with a locking mechanism for extended talk periods.

If you are constantly on the CB, drive in very rough environments, have a very heavy Mic or perform team driving, the Heavy-Duty model is your best bet.

Both models come with a convenient D-ring for mounting the Gear Keeper to any existing screw (i.e. headliner, visor, radio mount or dome light). Additionally, the lanyard attachment drops the Mic to a convenient hanging position.

■ Snap Clip Mount

■ High-Impact Case

■ Multi-Force Options

■ Stainless Steel Cable w/Nylon Coating or High-Tensile Spectra

■ Quick Connect (Q/C) w/ Pivot-Ball Connection

Retractable CB Mic Keeper®

Standard Model

Compact unit preferred by 70% of users.
Adequate extension for most applications with easy retraction force

Heavy Duty Locking Model

Higher retraction force; longer extension and higher spring cycle life make this unit ideal for the heavy duty users, heavy mics, construction vehicles or when extension to passenger compartment is required.

NEW

2X the Spring Life & Longer Extension!

▶ **Standard RT4-4112** (€ 19,99)
9 oz. (255 gr) Retraction
28" (71 cm) Extension

▶ **Heavy Duty Locking RT3-4112** (€ 24,99)
12 oz. (340gr) Retraction • 42" (106 cm) Extension

NEW

▶ 2 Mounting Options:
Snap Clip—easily removable or
Large Clamp for shortened semi-permanent mounting

Snap Clip (Removable)

Large Clamp (Semi Permanent)

Designer Series

▶ **Standard Chrome RT2-4712** (€ 21,99)
